Guidance for Measuring & Pricing of Kerbs, Footways and Paved Areas

CC-GMP-01100

October 2016

About TII

Transport Infrastructure Ireland (TII) is responsible for managing and improving the country's national road and light rail networks.

About TII Publications

TII maintains an online suite of technical publications, which is managed through the TII Publications website. The contents of TII Publications is clearly split into 'Standards' and 'Technical' documentation. All documentation for implementation on TII schemes is collectively referred to as TII Publications (Standards), and all other documentation within the system is collectively referred to as TII Publications (Technical).

Document Attributes

Each document within TII Publications has a range of attributes associated with it, which allows for efficient access and retrieval of the document from the website. These attributes are also contained on the inside cover of each current document, for reference.

TII Publication Number:	CC-GMP-01100
Publication Date:	October 2016
Set:	Standards

Contents Table

1. Steps	1
----------------	---

1. Steps

The measurement of steps in this document is intended for isolated steps and landings (e.g. steps to communications cabinets in cutting slopes). The compiler should define on the drawings in the Contract the extent of the steps and landings and each complete set of steps and landings is measured individually at each individual location. Steps and landings incorporated in a structure should be measured in accordance with the appropriate document of the Requirements for Measuring & Pricing.
