Guidance for Measuring and Pricing of Motorway Communications

CC-GMP-01500

October 2016

About TII

Transport Infrastructure Ireland (TII) is responsible for managing and improving the country's national road and light rail networks.

About TII Publications

TII maintains an online suite of technical publications, which is managed through the TII Publications website. The contents of TII Publications is clearly split into 'Standards' and 'Technical' documentation. All documentation for implementation on TII schemes is collectively referred to as TII Publications (Standards), and all other documentation within the system is collectively referred to as TII Publications (Technical).

Document Attributes

Each document within TII Publications has a range of attributes associated with it, which allows for efficient access and retrieval of the document from the website. These attributes are also contained on the inside cover of each current document, for reference.

TII Publication Title	<i>Guidance for Measuring and Pricing of Motorway Communications</i>
TII Publication Number	<i>CC-GMP-01500</i>

Activity	<i>Construction & Commissioning (CC)</i>	Document Set	<i>Standards</i>
Stream	<i>Guidance for Measuring & Pricing (GMP)</i>	Publication Date	<i>October 2016</i>
Document Number	<i>01500</i>	Historical Reference	Series MMNG 1500

TII Publications Website

This document is part of the TII publications system all of which is available free of charge at <http://www.tiipublications.ie>. For more information on the TII Publications system or to access further TII Publications documentation, please refer to the TII Publications website.

Set:	Standards

Contents

1. TV Monitoring to Motorways, Other Roads & Temporary Diversions for Traffic...	1
2. Location of Cables	2
3. Application to Non-Motorway Schemes.....	3
4. References.....	4

1. TV Monitoring to Motorways, Other Roads & Temporary Diversions for Traffic

Work which requires either temporary or permanent TV monitoring to motorways or other roads and which will by its nature be Contract-specific, should be billed in accordance with the various documents of the Method of Measurement and the overall principles of the Method of Measurement. For TV monitoring in connection with works of a temporary nature such as traffic diversions a separate item within CC-RMP-00100 should be billed rather than extending the item coverage for traffic diversions, or traffic safety and management. The Method of Measurement for these items should be prepared by the compiler in accordance with the General Principles of RMP. In the case of permanent works, new bill items should be raised following the principles of CC-RMP-01500 and other relevant document.

2. Location of Cables

Attention is drawn to the note for guidance on CC-RMP-01400.

3. Application to Non-Motorway Schemes

Where non-motorway schemes involve elements of communications equipment then the rules in this documents may still be used, however the title and references to "Motorway Communications" should be amended to "Communications" in accordance with the Requirements of CC-RMP-00010.
