

Series 2700: Accommodation Works and Works for Statutory Undertakers

1 General

Where accommodation works and works for privately and publicly owned services and supplies are known prior to tendering they should be billed in accordance with Chapter III and with the various Series of the MMRW. It might be appropriate to insert provisional quantities as provided for in Chapter I. If neither of these options can be used and accommodation works and works for privately and publicly owned services and supplies are anticipated but cannot be defined then a Provisional Sum may be included in the Bill of Quantities.
