

Notes :-

- All dimensions are in metres
- See NRA TD27 for dimensions of cross-section elements
- For details of road markings see the Traffic Signs Manual
- Width of central reserve for a Type 1 Dual Carriageway is determined by the type of safety fence or barrier. See NRA TD 19. It is suggested that a width of 3.0m be assumed for preliminary designs.
- The verge width should be increased as required to accommodate the features and services contained therein
- A minimum of Four No. Service Ducts are to be provided in each verge. Refer to Series 500 of NRA MCD & RCD/500/51 for details of Service Ducts.

Scale 1:100
