**Note:**

Minor revisions have been made in the following documents on the TII Publications system as noted within each document's amendments table:

- DN-GEO-03060: Geometric Design of Junctions (priority junctions, direct accesses roundabouts, grade separated, and compact grade separated junctions)
- CC-SPW-00010: Specification for Works Series 000 – Introduction

Document “NRA New Divided Road Types: 2 plus 1 Road – Pilot Programme” has been made available as DN-GEO-03086 for information.

In addition, all Standards Construction Details (SCDs) are being transferred to a TII format and will be uploaded as they become available over the next few weeks. Note that this is simply a change to the format of the drawings: no changes to technical requirements have been made.
